CRYSTAL CLEAR

Beauty is much more than skin deep to renowned esthetician Susan Ciminelli, owner and founder of **Susan Ciminelli Day Spa** (see listing, p. 46). Her eponymous oasis emphasizes a holistic approach to beauty and wellness, offering an extensive selection of treatments that soothe both body and spirit. A specialty is the crystal healing session, which begins with a brief consultation to determine what results the client wants to achieve. "I choose crystals that are necessary to remove negative energy and promote healing," Ciminelli describes. Aside from the hour-long stand-alone treatment, the ancient ritual can also be performed as part of a routine facial.—SB
